

# HOW TO USE COIR POT

1. Transfer existing pot into the Coir Pot or mix the Coir Vital Grow Potting Mix into the Coir Pot.
2. If planting on ground, dig a hole on the ground that is wide enough and deep enough to place the Coir Pot.
3. Fill it with soil or Coir Vital Grow or your favourite potting mix.
4. Water the Coir Pot.
5. Now plant your seeds/plants in the Coir Pots.

## PRODUCT DETAILS

- 100% biodegradable and environmentally sustainable.
- Adds texture to the soil as they degrade.
- Plants grown in these pots benefit from air pruning.
- Absorbs water better and no transplanting shock.
- Can be used in gardens, nurseries, indoors, patios, driveways, allotments.
- Crafted in Sri Lanka.
