

HOW TO USE COIR SEEDLING TRAY

1. Fill the cavities halfway with Coir Vital Grow Potting Mix and desired organic fertiliser.
2. Place seeds into each cavity.
3. Top up the cavity with Coir Vital Grow Potting Mix to fill.
4. As the seedlings grow, transplant the Coir Seedling Tray into desired location, either larger pots or the ground and cover with soil, benefitting from prolonged growth.

PRODUCT DETAILS

- Natural, biodegradable, and peat-free.
- Retains water, facilitates air porosity, and has excellent drainage.
- Breaks down into humus, enriching soil with nutrients.
- Protects and supports seedling growth.
- Crafted in Sri Lanka.
