

# HOW TO USE COIR GROW POLE

1. Soak the Coir Grow Pole in water for a few minutes.
2. Place it where you would like the plant support, in a Coir Pot or in the ground.
3. Arrange the plant around the pole, using Coir Yarn or other relevant material to secure the plant to the Grow Pole.

## PRODUCT DETAILS

- The coir used is 100% natural and biodegradable.
- Ethically produced and sourced.
- Coir retains water, facilitates air porosity, and has good drainage.
- Ideal for plants which need lots of moisture.
- Can be used in a variety of locations, including in gardens, greenhouses, nurseries, allotments, and indoors.
- Crafted in Sri Lanka.
