

HOW TO USE COIR VITAL GROW POTTING MIX

1. Remove the packaging and place the block into a large enough container or wheelbarrow.
2. Add water, 17 – 20L, and soak the block, allowing the potting mix to absorb the water and expand.
3. Once expanded break, stir, mix the fluffy coir (add more water if needed).
4. Use as desired!

PRODUCT DETAILS

- 100% Natural, biodegradable, and peat-free.
- Ethically produced and sourced.
- Retains water, facilitates air porosity, and has excellent drainage.
- Stable pH level.
- Helps protect essential elements of the soil.
